

The Foundation's Purpose, Mission and Vision

Extract from the Foundation's strategic plan (approved by the Boards of ACPSEM and ACPSEM Foundation Ltd.)

Purpose: Why begin the journey?

The Foundation's strategic plan is to:

- 1. promote research and development in the medical physics, engineering, and associated sciences*
- 2. promote safe and appropriate use of medical technology.*

The website plays an important role in promoting these tasks.

Mission: What's the path to follow to get to the destination and what to achieve?

The four pillars:

- Promote research and development in Australia and New Zealand*
- Support training and education initiatives in low to middle income countries*
- Facilitate knowledge exchange with other health professionals and the community*
- Undertake other charitable activities that align with the objects of the Foundation*

Vision: What do we aspire to achieve in the future?

- Access to better healthcare technology for everyone.*
